# EN. STEVENSON'S LETTER.

batte Utterances on the Tariff and Force Bill Issues. Adlai E. Stevenson's letter of accept nce of the Democratic nomination for Vice-resident was made public to-day. The ent is short, but aggressive in its tone

ng the Republican system of high Regarding the Republican system of high protection, Gen. Stevenson speaks plainly. "Whenever the power of taxation is used to draw tribute from the many for the benefit of a few, or when part of the people are oppressed in order that the rest may prosper unduly, equality is lost sight of, justice hardens into precedent which is used to excuse how exactions, and then arise artificial distinctions which the beneficiaries come to look upon in time as vested rights, sacred to themselves."

look upon in time as vested rights, sacred to the malves."

The declaration of the platform in regard to the coinage of money is subscribed to without reservation or qualification.

Of the Force bill Geo. Stevenson says: "Its importance cannot be overrated. It means the control of the election of Representatives in Congress by the bayonet. The Republican party stands pledged to the passage of this bill. That it will pass it when it has the power no same man can doubt. The enactment of a Force bill into law, while it would threaten the liberties of the entire people, would retard the material growth of the States at which it is specially aimed, would incite in many communities race troubles and invite retailatory legislation. The era of good feeling and renewed commercial relations, commencing with the election of Mr. Cleveland in 1884, should not be interrupted by the inauguration of a policy which tends to desurey popular representation and the purity of the local sel-government, which irenishes an instrument to discredit Federal power to perpetuate itself, which seeks to keep alive sectional jealousles. deral power to perpetuate itself eks to keep alive sectional jealousies and strife, which threatens important com-mercial interests, and which offers no excus-or palliation for its existence, except the perpetuation in power of a political party which has lost public confidence."

# LOOKING FOR "DAVE'S" ARREST.

It Is Experted by People at Headquar ters of Eack Party.

There was manifest uneariness at Republican National Headquarters, to-day, over the report that "Dave" Martin, of Philadelphia, was to be arrested as the responsible party for the unsuccessful attempt of several reporters in this city last week to register to the countant report that city last week to register to present its statement of expenses at the end of this city expects to present its statement of expenses at the end of this statement. expected to hear of the arrest.

Martin was said to be out of the city this morning. At Republican Headquarters the idea of his arrest was pooh-poohed, and the statement was made that whenever wanted on any charge Mr. Martin would appear.

The probability of the arrest being made was more than believed at the Democratic State Headquarters, and Secretary De Freest, of the Campaign Committee, declared that he was looking for that event every moment.

"I think that the responsibility for that corrupt registration matter has been fixed very close to Mr. Martin." Said Mr. De Freest, "and consequently I would not be surprised to hear that he had beed proceeded against."

HISCOCK TAKES COURAGE.

Sure that Harrison Will Carry This State and Win.

Senator Hiscock was one of the most conspicuous callers at Republican State Headquarters in the Fifth Avenue Hotel this morning. He was particularly pleased, be said, with advices from the interior of the State, and declared that as the contest drew nearer to a close he became more convinced that President Harrison would be re-elected. "What do I calculate will be President that President Harrison would be re-elected.

"What do I calculate will be President Harrison's majority in this State?" he said in reply to an Evening Wonto reporter's question. "This is a mighty hard matter to decide just now. I am satisfied that the state will go Republican. I am further satisfied that there will be increased Republican pluralities up the state over 1888. The big increase in registration means Republican majorities. I don't know anything about this city and Kings County, but I firmty believe we will win."

feel uneasy. As the morning wore along there was good deal of covering. The commission houses had liberal orders from their out-oftown customers and London was also inclined to espouse the bull cause. The quotations at that centre were above the parity of our

The big fluctuations, however, were in the specialties. New York, Susquehanna and Western common rose from 1195 to 2034, and the preferred joined 3, to 7334, on reports of a closer affiliation with the Penusylvania. New York & Northern preferred soid up 235 to 2334, and the common, which has not been quoted for years, soid at 1354a14. It is stated that since the licusatonic pissed into the hands of the Vanderblits the Reading has been transferring freignt by floats from Communipas to the New York & Northern docks on the Harlem River and that the earnings of the Northern have increased in consequence.
